

IS YOUR "ENGINE" TELLING YOU SOMETHING?

Make the Chest Pain Center at St. Elizabeth's Hospital your next stop. When your body is telling you something, it's important to listen. Chest discomfort, shortness of breath, pain in the arms, back, neck, jaw or stomach can all be signs of an impending heart attack. The faster you seek emergency medical help (or call 911), the greater your

chances of receiving lifesaving treatment. Accredited by the Society of Chest Pain Centers, our center is convenient and ready to help when you need it. So, if your "check engine" light goes on, don't ignore the warning signs and symptoms. Get to the Chest Pain Center before it's too late. We can help you back on the road to life.
